## Open Village/Open Space Residency and Exhibition

For immediate release:

The Nonstop Institute of Yellow Springs Ohio presents:

***“Open Village/Open Space”***

Inaugural Artist Residencies & Exhibition

Open Village/Open Space is an examination of how an artist’s work is shaped within a shared environment, addressing the intricacies of working in spaces whose use is simultaneously private and public. The Nonstop facility allows its members to flesh out concerns of freedom and constraint that occur when the public and private collide. The goal of the residency/exhibition is to provide both physical and conceptual workspaces that invite the artists to tackle these issues and the affect it has on the creation of their work.

The residency is open to three artists for six weeks and starts December 7<sup>th</sup> 2009. The exhibition opens Saturday January 23<sup>rd</sup>, 2010 in conjunction with the First Annual Nonstop Benefit Gala.

Open Village/ Open Space Artist Residency project invites applications by artists working in the southwestern Ohio region and will consider proposals by artists working in all media and at any stage of their careers.

Information and application forms will be available starting **Thursday, November 19<sup>th</sup>** on the Nonstop website at [www.nonstopinstitute.org](http://www.nonstopinstitute.org) or by contacting Michael Casselli at [michael.casselli@nonstopinstitute.org](mailto:michael.casselli@nonstopinstitute.org).
